SUBJECT INDEX TO VOLUME XXVI

ABDOMEN, One year's experience (1916) with gunshot wounds of the, at the Memphis General Hospital, 217
Abdominal surgery, Problems in, 543
Abortion, The treatment of septic, 400
Acid secretion, The disturbance of, accompanying ulcer of the stomach or duodenum and the changes following operation, 506
Adenocarcinoma of the vagina, tr., 468
Adenomyoma of the rectovaginal septum, 551
Ahlfeld method, A modification of the, for determining the maturity of the fœtus in utero, 563
Air, The entrance of, into the mediastinum during operations on the base of the neck, 540
Amputation, Interilio-abdominal description of a new method, with a report of three cases, 554
Anæsthetic of choice, Ethyl chloride as a general, in operations of short duration, with special reference to its value in war surgery, 352
Angulation at the sigmoid, 285
Antiseptic treatment, The treatment of war wounds; a discussion of the aseptic and open-air treatment as compared with the, 8
Arteries, Fascia transplantation into lateral defects of the major, 324
Arthroplasty, The method of new joint formation in; an experimental study, 406
Atresia, Complete, and disappearance of vagina in a multipara, 463

BACILLUS, mucosus capsulatus, An unusual skin infection due to, associated with a bladder drainage after prostatectomy, 394
Bacteriological and histological study, A combined, of the endometrium in health and in disease, 178, tr. 241
Banti's disease, Ligation of the splenic artery for, reports of cases, experimental studies, 660
Bile-ducts, The repair and reconstruction of the hepatic and common, 81; Reconstruction of the common, by means of a rubber tube (Sullivan's method), report of a case, 689
Bile peritonitis without evident perforation of the biliary tract, 303
Biliary tract, Bile peritonitis without evident perforation of the, 303
Bladder, Exstrophy of the, 678
Blood, The cholesterol content of the, in gall-stone disease, 282
Books received, 123, 587
Bunions, Some further notes on the treatment of, 460
Burns, The paraffin-wax or closed method of treatment of, 450

CÆCUM, Carcinoma of, tr. 466
Calculi, True prostatic, 70
Cancer, The action of radium on, 233; in the surgical clinic of the San Juan de Dios Hospital; with report of cases, 291; of the stomach, 367, 370; radium in uterine, 625
Carcinoma of the cæcum, tr. 466
Chicago Gynecological Society, 240, 357, 466, 579
Chicago Surgical Society, 244, 360, 362, 473, 575
Chloroform, An experimental and clinical study of, ether, and nitrous oxide-oxygen in pregnancy and labor, 170, tr. 240
Cholangiogastrostomy with report of a case, 385
Cholecystectomy, The fate of the cystic duct after, an experimental study, 110
Cholecystitis, Hepatitis a constant accompaniment of, 521
Cholesterol content of the blood in gall-stone disease, 282
Chorio-angiopagen, 568
Chronic surgical prostatis, 47
Clinic, Cancer in the surgical, of the San Juan de Dios Hospital, with report of cases, 291
Colon, Acute diverticulitis of the, its consideration, 207
Colon bacillus infection, extragenital, complicating pregnancy and the puerperal state, 189
Combined flaps, A new method for the production and transplantation of double faced and, with report of a case, 13
Condylomata, Luetic, tr. 467
Cord, spinal, Military aspects of the surgery of the spine and, 589; Old injuries of the, 601
Cranium, Immediate surgery of gunshot wounds of the, reviewing 46 recent craniotomies performed within a few hours after the reception of the wounds, 396
Cyst, Dermoid, tr. 467; of the hypophysis with pathological report, 61; retroperitoneal of wolffian origin, 663; Primary hydatid, of the uterus, 446
Cystic duct, The fate of the, after cholecystectomy, an experimental study, 110
Cystocele, tr. 467; operations, A cystoscopic study of the end-results of various forms of, 502; Treatment of, and uterine prolapse during the childbearing period, 570
Cystoma, Ovarian, 467
Cystoscopic, method, An experimental and clinical study of kidney and ureteral stones with a, for their removal, 631; study, of the end-results of various forms of cystocele operations, 502

DEATH, Fœtal, during labor, 545
Decidual endometritis polypoid, The care of the puerperal woman, 331
Dermoid cyst, tr. 467
Dichloramine-T, chlorinated eucalyptol solution on the peritoneum, The effect of, 616; Remarks on, 152; The use of, in the treatment of infections and infected wounds, 155
Displacement, Case of minor, of the lumbar vertebræ, reposition, cure, 346
Diverticula, Excision of vesical, after intravesical invagination by suction, a new method, 125; The recognition and treatment of intestinal, 211
Diverticulitis, Acute, of the colon, its consideration, 207
Duodenojejunal hernia, presentation of specimen, tr. 473

ELEPHANTIASIS treated by Kondoleon operation, 388
Endometritis, polypoid decidual, The care of the puerperal, 331
Endometrium, A combined bacteriological and histological study of the, in health and in disease, 178, tr. 241
Ethyl chloride, as a general anæsthetic of choice in operations of short duration, with special reference to its value in war surgery, 352
Eucalyptol solution, The effect of dichloramine-T chlorinated, on the peritoneum, 616

Excision, The, and suture of superficial gunshot wounds under local anæsthesia, 565; of vesical diverticula after intravesical invagination by suction, a new method, 125
Exstrophy of the bladder, 678
Experimental, Clinical and, studies on congenital pyloric stenosis, 318
Experimental physiological action of ovarian extracts, 196;
Extravasation, Urinary, 296

FASCIA transplantation into lateral defects of the major arteries, 324
Fibroids, uterine, Radium in the treatment of certain types of uterine hæmorrhage and, 495
Field, The French Service de Santé in the, cor. 354
Filiform strictures of the urethra, A new method of treating, 347
Fœtal death during labor, 545
Fœtus, A modification of the Ahlfeld method for determining the maturity of the, in utero, 563
Forceps, Modified uterine and viscera, for the careful manipulation of tissue, 237
Fractures, The treatment of, by suspension and extension, 226; The treatment of, of the extremities by means of suspension and traction, 245; A universal, frame, combining suspension with traction of the lower or upper extremity and fluoroscopic control, especially useful in military surgery, 339; Artificial impaction of supracondyloid, of the humerus in children, tr. 474; A new, orthopedic operating table, 683
Frame, A universal fracture, combining suspension with traction of the lower and upper extremity and fluoroscopic control, especially useful in military surgery, 339
French Service de Santé in the Field, cor. 354
Function, Gastric, following gastro-enterostomy; an analysis of 273 cases, 275

GALL-STONE disease, The cholesterol content of the blood in, 282
Gastric function following gastro-enterostomy, an analysis of 273 cases, 275
Gastro-enterostomy, Gastric function following, an analysis of 273 cases, 275
General Hospital, 23, B. E. F., France, Someo bservations on military surgery during one year's service in the, 51
Glasgow Royal Maternity and Woman's Hospital, Experiences in the, in the summer of 1916, 238
Grafting, Simplified skin, 117
Gunshot, injuries of the lungs, report of 30 cases, 638; wounds, Immediate surgery of the cranium reviewing 46 recent craniotomies performed within a few hours after the reception of the wounds, 396; wounds of the abdomen, One year's experience (1916) with, at the Memphis General Hospital, 217
Gynecology, The therapeutic use of radium in, 619

HÆMOLYTIC splenomegaly cured by splenectomy, 350
Hæmorrhage, postoperative, and postoperative cardiac dilation, Clinical study of blood pressure and hæmoglobin in postoperative shock, 312; secondary to nephrolithotomy, 538; Radium in the treatment of certain types of uterine, and uterine fibroids, 495
Hepatitis, A constant accompaniment of cholecystitis, 521
Hernia, Duodenojejunal, presentation of specimen, tr. 473; Perineal, 514
Histological, A combined bacteriological and, study of the endometrium in health and in disease, 178, tr. 241
Hospital, standardization and too much surgery, ed. 464; Experiences in Glasgow Royal Maternity, 238
Hour-glass stomach, The operative indications in, with report of 17 cases, 1
Hydatid, Primary, cysts of the uterus, 446
Hydronephrosis, Transperitoneal nephrectomy in infants for large congenital, 681
Hypophysis, Cysts of the, with pathological report, 61

IMPACTION, Artificial, of supracondyloid fractures of the humerus in children, tr. 474
Infected Wounds, The use of dichloramine-T in the treatment of infections and, 155
Infections, Postoperative therapeutics of surgical, 120; An unusual skin, due to bacillus mucosus capsulatus associated with a bladder drainage after prostatectomy, 394; Colon bacillus, extragenital, complicating pregnancy and the puerperal state, 189; Ascending urinary, an experimental study, 159, tr. 244; The restoration and repair of the wound, combating contamination and, 372
Injuries, Gunshot, of the lungs; report of 30 cases, 638; Old, of the spinal cord, 601
Innominate artery, Removal of portion of sternum for ligation of the, with report of two cases, 112
Inserts: Morse, Premature separation of normally implanted placenta, opposite 125; Beck, Sutureless skin-sliding, opposite 260 and 261; Sherman, Paraffin-wax Treatment of Burns, opposite 454; Bugbee, Renal tuberculosis, opposite 479 and 482
Interilio-abdominal amputation; a description of a new method with a report of three cases, 554
Interstitial pregnancy, 551
Intestinal diverticula, The recognition and treatment of, 211
Intussusception, Abdominal tumor causing, tr. 466
Instruments, new, Repair of tendons in the fingers and description of two, 103

KIDNEY, Changes in the trigone due to tuberculosis of the, ureter, and bladder, bridge formation and floating kidney, 608
Knee-joint, Observation of war wounds of the, among French soldiers, 139
Knot, A new method of tying a surgical, 559
Kondoleon operation, Elephantiasis treated by, 388

LABOR, Fœtal death during, 545
Ligation, of the innominate artery, Removal of portion of sternum for, with report of two cases, 112; of the splenic artery for Banti's disease, reports of cases, experimental studies, 660
Lungs, Gunshot injuries of the, report of 30 cases, 638; Abscess, Sutureless skin-sliding method for the radical treatment of, and chronic osteomyelitis, 259
Luetic condylomata, tr. 467

MALIGNANT neoplasm of the thyroid with metastases in the intestine and in bone, 288
Maturity of the fœtus in utero, A modification of the Ahlfeld method for determining the, 563
Mediastinum, The entrance of air into the, during operations on the base of the neck, 540
Menstruation, Vicarious, tr. 580
Military aspects of the surgery of the spine and spinal cord, 589; surgery, Some observations on, during one year's service in 23d General Hospital, B. E. F., France, 51

NEOPLASM, Malignant, of the thyroid with metastases in the intestine and in bone, 288
Nephrectomy, Transperitoneal, in infants for large congenital hydronephrosis, 681

Nephrolithotomy, Hæmorrhage secondary to, 538
Nitrous oxide-oxygen, An experimental and clinical study of chloroform, ether, and, in pregnancy and labor, 170, tr. 240
Nullipara, Prolapse of pelvic organs in, tr. 466

OBSERVATIONS, Some, on military surgery during one year's service in the 23d General Hospital, B. E. F., France, 51
Open-air Treatment, The treatment of war wounds, a discussion of the aseptic and, as compared with the antiseptic treatment, 8
Operation, Is the purgation of patients before, justifiable, a clinical and experimental study, 651; Presentation of a radical, for tuberculosis of the seminal tract, 375
Operative indications, The, in hour-glass stomach, with report of 17 cases, 1
Organs, Prolapse of pelvic, in nullipara, tr. 466
Orthopedic operating table, A new fracture, 683
Osteomyelitis, Sutureless skin-sliding method for the radical treatment of lung abscess and chronic osteomyelitis, 259
Ovarian, cystoma, tr. 467; extracts, Experimental physiological action of, 196

PARAFFIN-WAX, The, or closed method of treatment of burns, 450
Pathological report, Cysts of the hypophysis, with 61
Peptic ulcer, 489
Perineal, hernia, 514; urethrotomy, A simple method of performing external, 232
Peritoneum, The effect of dichloramine-T chlorinated eucalyptol solution on the peritoneum, 616
Peritonitis, Bile, without evident perforation of the biliary tract, 303
Placenta, Premature separation of the normally implanted, 133
Pneumonitis, A study of postoperative, 29
Polypoid decidual endometritis, the care of the puerperal woman, 331
Postoperative, pneumonitis, a Study of, 29; shock, Clinical study of blood pressure and hæmoglobin in, postoperative hæmorrhage, and postoperative cardiac dilatation, 312
Pregnancy, Colon bacillus infection, extragenital, complicating, and the puerperal state, 189; An experimental and clinical study of chloroform, ether, and nitrous oxide-oxygen in, and labor, 170, tr. 240; Interstitial, 551; Toxæmia of, tr. 468; Ruptured tubal, tr. 580
Prolapse of pelvic organs in nullipara, tr. 466; Treatment of cystocele and uterine, during the childbearing period, 570
Prolapsus, Recurrent, tr., 466
Prostatectomy, An unusual skin infection due to bacillus mucosus capsulatus associated with a bladder drainage after, 394
Prostatic calculi, True, 70
Prostatis, Chronic surgical, 47
Puerperal, Thrombophlebitis, uteropelvic, septic, 668
Purgation, Is before operation justifiable, 651
Pyloric stenosis, clinical and experimental studies on congenital, 318

RADIUM, The action of, on cancer, 233; in the treatment of certain types of uterine hæmorrhage and uterine fibroids, 495; in gynecology, The therapeutic use of, 619; in uterine cancer, 625
Reconstruction, of the common bile-duct by means of a rubber tube (Sullivan's method) report of a case, 689; The repair and, of hepatic and common bile-ducts, 81
Rectovaginal septum, Adenomyoma of the, 551
Recurrent prolapsus, tr. 466
Renal tuberculosis, The management of, 479
Repair, The, and reconstruction of the hepatic and common bile-ducts, 81; of tendons in the fingers and description of two new instruments, 103; of the wound, The Restoration and, combating comtamination and infection, 372
Reposition, Case of minor displacement of the lumbar vertebræ; cure, 346
Retroperitoneal cysts of wolffian origin, 663
Rider's tendon, rupture of the adductor tendons of the thigh, 192
Rupture of the adductor tendons of the thigh, Rider's tendon, 192; of the uterus, tr. 580
Ruptured tubal pregnancy, tr. 580

SANTÉ, de, The French service, in the field, cor. 354
Seminal tract, Presentation of a radical operation for tuberculosis of the, 375
Septic abortion, The treatment of, 400
Serum, The use of Bull's, in the treatment of wounds infected with bacillus aerogenes capsulatus welchii, 336
Shock, Postoperative, Clinical study of blood pressure and hæmoglobin in, postoperative hæmorrhage, and postoperative cardiac dilatation, 312
Sigmoid, Angulation at the, 285
Skin grafting, Simplified, 117
Skin-sliding method, Sutureless, for the radical treatment of lung abscess and chronic osteomyelitis, 259
Spinal cord, Old injuries of the, 601
Spine, Military aspects of the surgery of the, and spinal cord, 589
Splenectomy, Hæmolytic splenomegaly cured by, 350
Splenic artery, Ligation of the, for Banti's disease, reports of cases, experimental studies, 660
Splenomegaly, Hæmolytic, cured by splenectomy, 350
Stenosis, Clinical and experimental studies on congenital pyloric, 318
Stomach, Cancer of the, 367, 370; hour-glass, The operative indications in, with report of 17 cases, 1; ulcer of the, The disturbances of acid secretion accompanying, or duodenum, and the changes following operation, 506
Stone, urate, in tumor of ureter, tr. 467; Ureteral, An experimental and clinical study of kidney and, with a cystoscopic method for their removal, 631
Strictures of the urethra, A new method of treating filiform, 347
Sullivan's method, Reconstruction of the common bile-duct by means of a rubber tube, report of a case, 689
Supracondyloid fractures of the humerus in children, Artificial impaction of, tr. 474
Surgery, Problems in abdominal, 543
Surgical knot, A new method of tying, 559; prostatis, Chronic, 47
Suture, The excision and, of superficial gunshot wounds under local anæsthesia, 565

TABLE, A new fracture orthopedic operating, 683
Tendons, in the fingers, Repair of, and description of two new instruments, 103; of the thigh, rupture of the adductor, Rider's tendon, 192
Therapeutics, Postoperative, of surgical infections, 120
Thrombophlebitis, uteropelvic, septic, puerperal, 668
Thyroid, Malignant neoplasm of the, with metastases in the intestine and in bone, 288
Toxæmia of pregnancy, tr. 468
